Academic & Professional Experience

HCII, Carnegie Mellon University

VISITOR

Pittsburgh, PA

Nov. 2018 - Present

- Advisor: Prof. Jeffrey P. Bigham
- Working on AI and human collaboration, enabling human by incorporating multimodal ML techniques, including NLP and CV into daily life. Help blind people perceive the world, construct knowledge and understand natural language queries with state-action graphs of user interface, help memorize and organize events from users' daily conversations, etc.

SAILING Group, Carnegie Mellon University

VISITOR

Pittsburgh, PA

Mar. 2018 - May. 2018

- Advisor: Zhiting Hu, Prof. Eric Xing
- Worked on deep generative models for natural language. Extend data-to-text generation to text content manipulation. Instead of generating from scratch, we generate by "modifying" other sentences retrieved through domain knowledge with the critical information in data records. The task differs from traditional text style transfer and we propose a dual-copy mechanism.
- Research paper under progress.

Data Mining Research Group, University of Illinois at Urbana-Champaign

VISITOR

Urbana, IL

Jun. 2017 - Dec. 2017

- Advisor: Prof. Jiawei Han (UIUC), Prof. Xiang Ren (USC)
- Worked on various text problems such as relation extraction, sequence labeling, event extraction, information extraction, social network, etc.
- Research papers accepted by WSDM 2018, AAAI 2018, KBCOM 2018, WWW 2018.
