Academic & Professional Experience

Human-Computer Interaction Institute, Carnegie Mellon University

Pittsburgh, PA

VISITOR

Nov. 2018 - Present

- Advisor: Prof. Jeffrey P. Bigham
- Working on enabling human by incorporating the machine learning techniques, including NLP and CV into human daily life. Help blind people perceive the world and use legacy interfaces, extract knowledge from manuals for the disabled, enabling conversational efficiency and memory with AI assistants, etc.
- Research paper under progress.

SAILING Group, Carnegie Mellon University

Pittsburgh, PA

VISITOR

Mar. 2018 - May. 2018

- Advisor: Zhiting Hu, Prof. Eric Xing
- Worked on text content manipulation. Aim to generate text based on data. Instead of generating from scratch, we generate by "modifying" critical information upon existing retrieved text through relevant data. The task differs from traditional text style transfer and we propose a dual-copy mechanism.
- Research paper under progress.

Data Mining Research Group, University of Illinois at Urbana-Champaign

Urbana, IL

VISITOR

Jun. 2017 - Dec. 2017

- Advisor: Prof. Jiawei Han (UIUC), Prof. Xiang Ren (USC)
- Worked on various information extraction tasks such as relation extraction, sequence labeling, event extraction, open information extraction, etc.
- Research papers accepted by WSDM 2018, AAAI 2018, KBCOM 2018, WWW 2018.

ADAPT Lab, Shanghai Jiao Tong University
